

The 4Ds: Description

ANTHROPIC

Description is the ability to communicate with AI in ways that create a productive collaborative environment.

Hey! Guess what
I'm thinking?

Sigh.

Product Description

Defining what you want in terms of outputs, format, audience, and style.

The first thing
we need to do...

Process Description

Defining how the AI approaches your request, such as providing step by step instructions for the AI to follow.

Act as a
Socratic tutor.

Performance Description

Defining the AI system's behavior during your collaboration, such as whether it should be concise or detailed, challenging or supportive.

Clear communication with AI systems up front saves time and leads to better results.
