

The 4Ds: Diligence

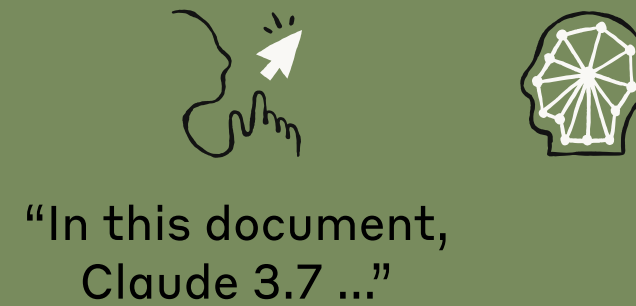

ANTHROPIC

Diligence is taking responsibility for what we do with AI and how we do it.

Creation Diligence

Being thoughtful about which AI systems you use and how you interact with them.

Transparency Diligence

Being honest about AI's role in your work with everyone who needs to know.

Deployment Diligence

Taking responsibility for verifying and vouching for the outputs you use or share.

Different contexts (personal, academic, professional) may have different expectations for disclosure and verification.
